

About Genesee Valley Plein Air Painters, Inc.

Organized in September, 2005, Genesee Valley Plein Air Painters, Inc. is an artist association that promotes and inspires quality, plein air painting while providing socially pleasant painting opportunities for its membership throughout the year. Our fifty-six artists who paint in the outdoors reside throughout the Genesee Valley, Finger Lakes, and Western New York regions.

The paintings in this art show represent works that have been produced within the past two years and meet the definition of "plein air" as set by this association (85% of paintings completed on site). Plein air means that the work has been painted on site of the subject in "open air" (natural light).

Comments from the judge: I am honored to have been asked to jury the prestigious GVPAP 15th annual show! The selection process was very difficult, as so much of the work spoke to me. Here are the criteria I used when viewing each painting: Emotive Quality, Moment In Time, Sense Of Light, Story, Technical, Presentation. The wide range of styles within the painting medium were a joy to view; each work revealing a little piece of each of your souls. Thank you for sharing your plein air experiences with all of us, and for taking the very important time to **MAKE ART** in our chaotic time.
